## Education

-  **Bachelor of Science in Information Technology**  
University of Eastern Pangasinan  
4<sup>th</sup> Year  
Expected Graduation - 2026

## Soft Skills

- Willingness to learn and improve technical skills
- Problem-solving mindset
- Teamwork and clear communication
- Time management and task prioritization
- Ability to follow instructions and ask questions when needed

## Objective

Motivated IT student seeking an On-the-Job Training (OJT) opportunity to gain hands-on experience in an IT environment. Familiar with basic programming concepts and system development using guidance from online resources and AI tools, with a strong willingness to learn and improve technical skills.

## Technical Skills

- **Web & Programming:** HTML, CSS, PHP, Node, React, Next.js; simple CRUD system development with guidance / AI-assisted
- **Mobile & Application:** Flutter (basic), Android Studio (basic Android app development)
- **Databases:** MySQL, SQLite (basic CRUD operations); Firebase Realtime Database / Cloud Firestore (basic integration)
- **Tools & Platforms:** VS Code, FileZilla (website deployment), InfinityFree (web hosting), Unity (basic game development), Online Documentation / AI-assisted development
- **Other Skills:** Basic PC troubleshooting, basic networking concepts; MS Word, Excel, PowerPoint

## Academic/School Projects

- **E-Commerce System (Laravel)** – Designed and developed a basic e-commerce website with RBAC (Admin, Staff, Vendor, Delivery Rider) authentication, product management, order tracking and PayPal integration; conducted 2-pair testing to validate system functionality and user roles; completed using online resources and AI-assisted learning.
- **Capstone Project: 3D Unity Game (Group Project)** – Participated in team-based development of a 3D game; contributed to game mechanics, UI, and team collaboration; gained experience in project planning and Unity basics; presented and evaluated as part of the capstone requirement.  
**Role:** Developer Support

## School Seminars

- IT WEEK 2025 seminar – Igniting the age of AI
- IT WEEK 2024 seminar – From code cloud and beyond
- IT WEEK 2023 seminar- Digital Diversity: Navigating the cyber security frontier
- CODEWAVE Organization seminar 2023 – Tech Fusion: Showcasing the integration of creative multimedia in web development
